

RAHUL THAKUR

SOFTWARE QA AUTOMATION ENGINEER

✉ rahulthakur7251009@gmail.com | ☎ +91 8929191304 | 📍 Ghaziabad / Delhi NCR, India

PROFESSIONAL SUMMARY

Results-driven Software QA Automation Engineer with 6 months of hands-on internship experience in Manual & Automation Testing across healthcare and enterprise platforms. Specialized in Playwright-based test automation, web crawler development, and end-to-end QA lifecycle management. Delivered significant reductions in manual testing effort by building scalable automation frameworks. Immediately available for full-time opportunities.

CORE TECHNICAL SKILLS

Testing Expertise

Manual Testing	Automation Testing	Functional Testing	Regression Testing
Smoke Testing	UI Testing	API Testing	Performance Testing
Bug Reporting	Test Case Design	Test Planning	Defect Lifecycle

Automation & Programming

Playwright	JavaScript	TypeScript	Web Crawlers
POM Framework	Test Fixtures	Parallel Testing	CI/CD Integration
HTML/CSS Basics	JSON / REST APIs	Allure Reports	Mochawesome

Tools & Platforms

Postman	Chrome DevTools	Git / GitHub	VS Code
JIRA / Bug Tracking	Excel / Sheets	Slack	Notion

INTERNSHIP EXPERIENCE

Software QA Intern

ABYM Technology — Ghaziabad / Delhi NCR

Oct 2025 – Apr 2026

6 Months

- ▶ Executed manual and automation testing for healthcare and enterprise web applications including HIMS systems and government healthcare portals
- ▶ Tested multiple HIMS modules — OPD, IPD, Billing, Pharmacy, Reports, Lab, and Admin — creating comprehensive test suites for each
- ▶ Designed and executed 100+ test cases covering positive, negative, boundary, and edge case scenarios
- ▶ Identified, documented, and tracked critical bugs with severity/priority classification using structured bug reporting methodology
- ▶ Coordinated with developers and team leads for fix verification, regression testing, and deployment sign-offs
- ▶ Conducted structured smoke testing and full regression testing before each release cycle, ensuring zero production P0 defects

- ▶ Built Playwright automation scripts that automated repetitive test flows, reducing manual QA effort by ~60%
- ▶ Collaborated in an Agile environment, participated in daily standups, sprint planning, and test retrospectives

KEY AUTOMATION PROJECT

Web Automation Testing Framework | Playwright • JavaScript • TypeScript • Web Crawling

- ▶ Developed an advanced Playwright + web crawler tool that auto-scans all URLs and modules of a target website without manual input
- ▶ Detects and maps pages dynamically, then performs automated UI testing across each module including form validation, navigation, and element checks
- ▶ Generates detailed HTML test reports (Allure / Mochawesome) with screenshots on failure for faster debugging
- ▶ Implemented Page Object Model (POM) design pattern for scalable, maintainable test architecture
- ▶ Reduced overall manual testing effort by approximately 60% and significantly improved test coverage breadth

EDUCATION

Bachelor of Computer Applications (BCA)

Modern Degree College, Modern Group of Institutions

Currently Pursuing

KEY STRENGTHS

◆ Automation Mindset

Passionate about building scalable automation tools that eliminate repetitive work

◆ Strong Analytical Skills

Quickly identifies root causes and patterns in defects and system issues

◆ Team Collaboration

Effective communicator with developers, QA teams, and project leads

◆ Fast Learner

Adapts quickly to new platforms, tools, and QA methodologies

Available Immediately for Full-Time Roles | 6 Months QA Internship Completed | Ghaziabad / Delhi NCR
